

Mediteq Forum Digital

How to make the Canada goose fly?

Mediteq Forum is excited to welcome Mia Spiegelman from MedTech Canada as guest speaker to this webinar focusing on the regulatory requirements and medical device landscape in Canada.

In this session, Mia will share what the regulatory requirements look like for the Canadian market and how the registration process is structured. She will also talk about MDSAP and what that means for a manufacturer entering the Canadian market. She will share her insights and information on recent changes and possible impacts, as well as her best advice and no-go to be successful on the Canadian market.

Date: 24th of November, from 15.00 – 17.00

Digital: Zoom link will be available for participants
